

Library

Our school library is a vibrant learning space that goes beyond bookshelves. It offers a wide collection of textbooks, reference materials, storybooks, and journals, along with access to digital resources. The calm and welcoming atmosphere encourages students to read, research, and expand their knowledge. It is a place where curiosity is nurtured and independent learning is strengthened.

Sports Complex

The sports complex provides students with excellent opportunities to stay active and develop teamwork. With a netball court, basketball court, table tennis, cricket ground, and a spacious track and field area, students can participate in a variety of games and athletic events. Regular training and competitions help students build confidence, discipline, and a healthy lifestyle while showcasing their sporting talents.

Visaladchi mandapam

Our main hall, designed as a modern auditorium, is the center for school events and cultural activities. It hosts assemblies, stage performances, competitions, debates, and celebrations throughout the year. With good seating and acoustics, the hall provides a professional platform for students to express creativity, enhance communication skills, and gain confidence in front of an audience.

Rajavarothayar Temple

The school temple stands as a reminder of our cultural and spiritual heritage. It is a peaceful place where students and staff can begin their day with prayers, reflect quietly, or take part in traditional observances. The temple plays an important role in nurturing values of respect, discipline, and harmony within the school community.

Science Laboratories

Hands-on learning is a key part of our science education. Our laboratories are fully equipped to support practical experiments and discovery.

- The Junior Science Lab introduces younger students to the basics of experimentation and observation.
- The Physics Lab allows learners to explore mechanics, electricity, light, and other physical phenomena.
- The Chemistry Lab provides a safe environment to study reactions, compounds, and chemical analysis.

- The Botany Lab offers facilities to observe and research plant life and their processes.
- The Zoology Lab helps students explore animal biology, anatomy, and classification in depth.

Technology Laboratories

Our technology labs prepare students for a fast-changing world. Equipped with modern computers, digital learning tools, and ICT resources, they provide a hands-on environment for coding, design, and creative problem-solving. Students are encouraged to use technology to innovate, collaborate, and build skills that connect learning with real-world applications.

Co-operative Distribution Centre (canteen)

Our Co-operative Distribution Centre has been serving the school community since 1951, providing essential goods at affordable prices while supporting the school's growth. It offers food items, classroom supplies, uniforms, ties, and socks to meet the everyday needs of students and staff. The funds collected are reinvested into the school, helping to improve facilities and resources. Operating on the principle of service, the centre continues its long-standing tradition of supporting both staff and students in practical and meaningful ways
